FastMarkets Ltd was founded in 1999 by Ross Norman and Dominic Hall; both ex-traders from the London Bullion Market. Their aim was to build a company that provided information products for the metals markets, backed by deep knowledge, experience and passion.

Today, FastMarkets has established itself as an authoritative provider of fast high quality news and research on the metals markets. This has been achieved thanks to the inspirational advisory board, led by the Chairman John Parcell and the enthusiastic and highly skilled staff.

FastMarkets is proud of its world class editorial team. Led by Martin Hayes, one of the best-known metals reporters in the business, we have a dynamic and experienced team of journalists who are passionate about the markets they report on. The same enthusiasm extends to our Analysts, led by William Adams, who live and breathe the metals markets.
