# Setup the selected data report and click download

You can download LME or SHFE warehouse stock *totals* or use the chevrons in the data reports to drill down into the data and download the granular cities stock levels, or drill down further to see the commodity stock level data eg Copper > Busan > Ingots.

In the LME Closing Prices report, drill down via the chevrons to the required metal and see all prompt dates (expiries) for the date you selected.

Note that there are data reports available for :

- LME warehouse stock movements
- LME Averages
- LME Closing Prices
- SHFE warehouse stock movements
- Base metals bonded stocks (Fastmarkets)
- Chrome and manganese ore inventories (Fastmarkets)
- USDA Slaughter data

## How to access

To access the Data Reports widget, go to "Add Widget", then click on the Data Reports option.

From the Data report widget, access all of the LME, SHFE, USDA and Fastmarket data reports.

Once you have selected and set up the report how you wish to view it, click the Export Options button and select either Excel or PDF.

The relevant report will download to the downloads window in File Explorer.

# View USDA Slaughter data in the Dashboard

This release will add the view USDA Slaughter data in the Data report widget. This encompasses data for cattle, claves, hogs and sheep.

This data is required by clients migrating from the Jacobsen legacy website to the Dashboard and is only available to Agriculture customers with roles for Industrial Materials, Animal Proteins and Oils, Fats and Biofuels.

The data updates once a day and is always for the previous day. Should the USDA update their PDF with a correction for the previous day, we will automatically display this update.

#### How to access

To access the USDA Slaughter data, click 'Add Widget' then select 'Data Reports'. From the purple drop down menu, select USDA Slaughter data.
