Link to Price Publication Schedule - Dashboard

SIMPLIFIED ACCESS TO THE FASTMARKETS PRICE PUBLICATION SCHEDULE

In the Help section of the Fastmarkets Dashboard, a new section 'Pricing Schedules' has been added. This allows you to easily navigate to the Fastmarkets website, where you can access detailed information around the price publication schedules of all of Fastmarkets prices.

How to access

- Navigate to the Fastmarkets Dashboard and access drop down Help Section on the Dashboard.
- Click "**Pricing schedules**".
- Navigate the webpage with all pricing schedules.

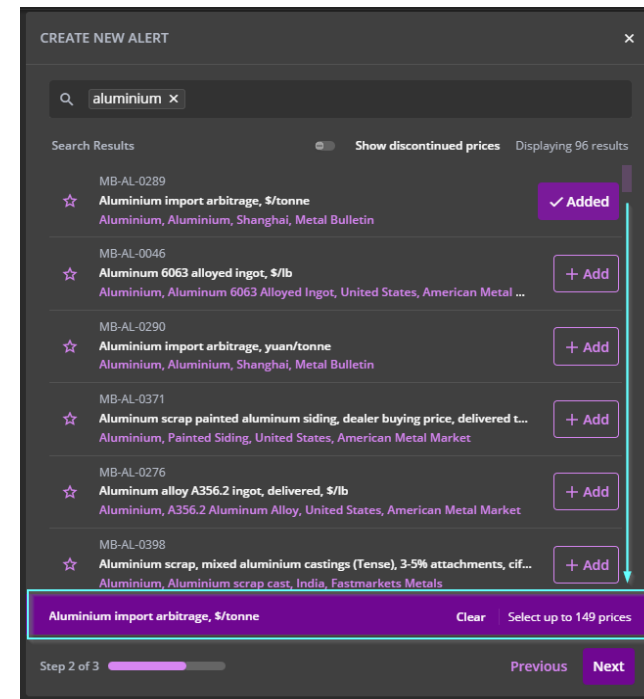

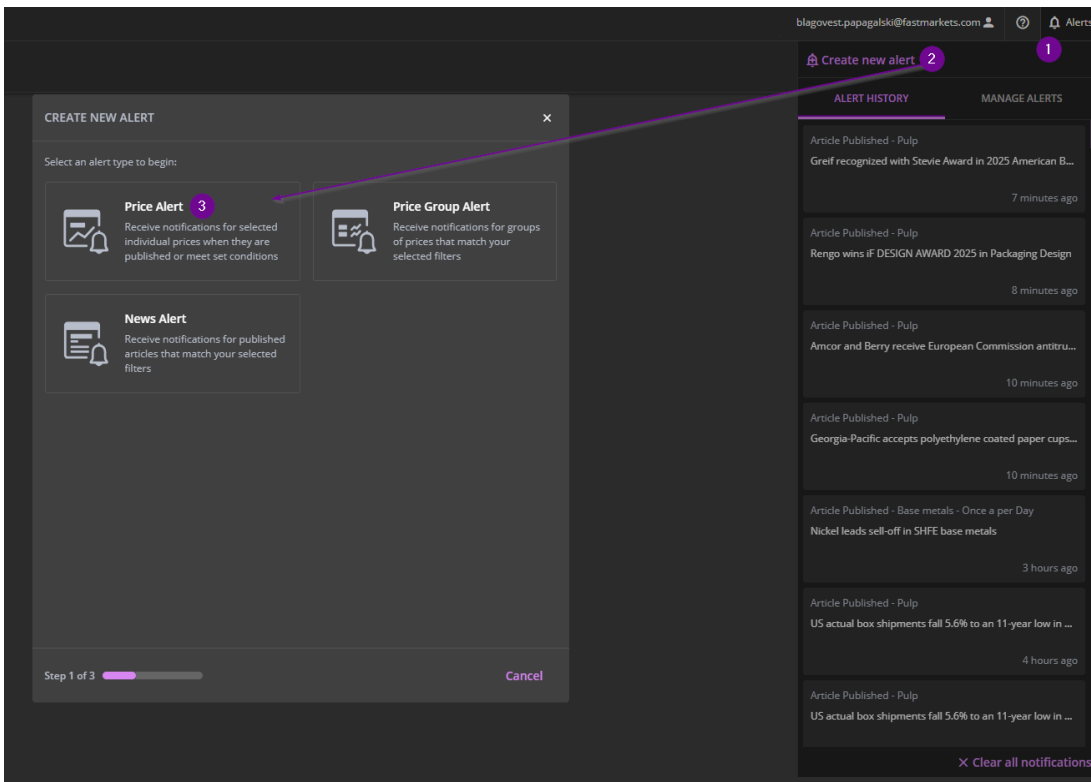

Expanded Price Alerts Functionality

SET UP ALERTS FOR A CUSTOM SELECTION OF PRICES

The "Price Alert" functionality on the Fastmarkets Dashboard now supports a custom selection of up to 150 prices, previously limited to just one. This enables the ability to receive notifications for selected individual prices when they are published or when they meet set conditions.

How to access

- Navigate to the Fastmarkets Dashboard and access **Price Alerts** section on the Dashboard.
- Start setting up your alert by clicking on Price Alert.
- Make your custom selection of up to 150 prices.

Create Spreads on Price Chart Widget

CREATE A SPREAD WITH PHYSICAL PRICES ON PRICE CHART WIDGET

Price Chart widget now allows you to compare price movements between two markets, this means you can create a spread.

This functionality is focused on physical prices and can be used with markets that you have added on a Price Chart widget.

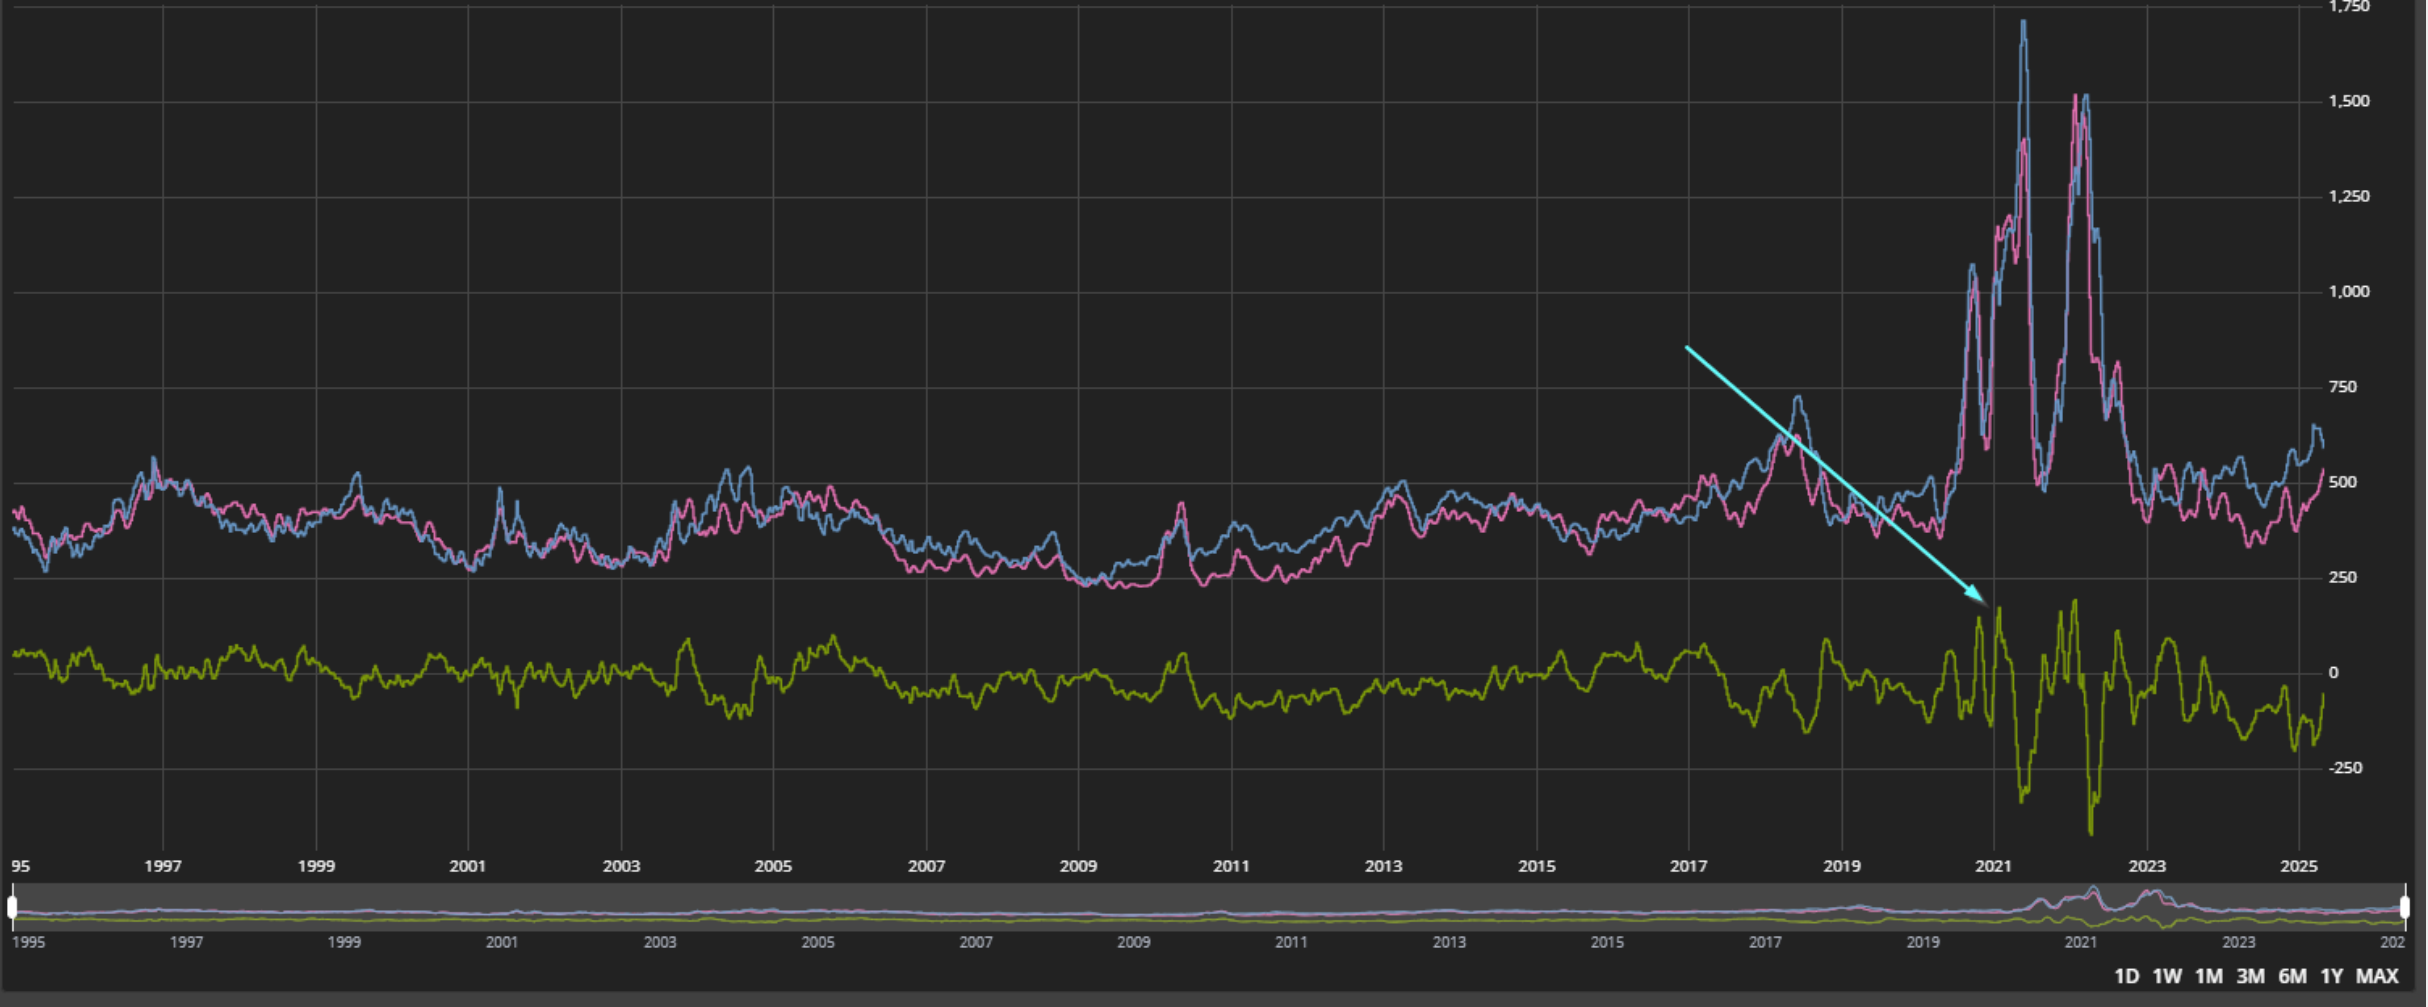

How to access

- Navigate to an existing Price Chart widget, or create a new widget.
- Ensure you have at least two markets added to the price chart widget.
- Click on **"create spread"** > select base market and comparison market > click create.
- The spread will be display, and is identified by the "spread" label.

The spread is now available on the widget.
